May 2023 CPT® Editorial Panel Meeting

The proposed agenda for the May 2023 CPT Editorial Panel meeting shows the code application names, code(s) affected, and a description of the request. The Code Numbers and Request Descriptions detailed in this document are extracted from Code Applications submitted for discussion at this meeting. **Until such time as the CPT Editorial Panel acts on these requests, the information that appears in this Proposed Agenda is provided for informational purposes only, giving interested individuals the information to help determine whether or not to attend the meeting and provide comment on a given topic(s).**

Codes that contain an ‘X’ (e.g., 102X4, 2342X, 130XT) below are placeholder codes that are intended, through the first three digits, to give readers an idea of the proposed placement in the code set of the potential code changes. **These codes are not used for claims reporting and will be removed and not retained when the final CPT Datafiles are distributed early September of each year. To report the services for “X” codes listed on this form, please refer to the actual codes as they appear in the CPT Datafiles publication distributed early September of the corresponding year.**

NOTICE – INTERESTED PARTY PROCESS
