

## CPT® Proprietary Laboratory Analyses (PLA) Codes: Short Descriptors

It is important to note that further CPT Editorial Panel (Panel) or Executive Committee actions may affect these codes and/or descriptors. For this reason, code numbers and/or descriptor language in the CPT code set may differ at the time of publication. In addition, further Panel actions may result in gaps in code number sequencing.

### Most recent changes to the CPT® Proprietary Laboratory Analyses (PLA) Short Descriptor document:

- Addition of 17 codes (0614U–0630U), revision of 2 codes (0256U, 0580U), and revision of the PLA guidelines accepted by the CPT Editorial Panel.
- Revision of the proprietary and laboratory name for code 0319U.
- Deleted codes in this document appear with a ~~strike through~~.

\*Please note there has been no change to the short descriptor for codes 0319U, 0524U.

Proprietary Name and Clinical Laboratory and/or Manufacturer	Code	Short Code Descriptor	Released to AMA Website	Effective Date	Publication
