RECOMMENDATION A:

Resolution 1 be amended by addition and deletion:

RECOMMENDATION B:

Resolution 1 be adopted as amended.

FINAL ACTION: Adopted as Amended.

Online commentary was generally supportive of Resolution 1. The overall sentiment supported that the AMA, as appropriate, should advocate for physician leadership on regulatory bodies and boards in lieu of non-physician health care professionals. Further, commentary favored a mechanism to support physician involvement in leadership and creation of resources to support involvement in those opportunities.

Your Reference Committee wishes to note that AMA Policy H-405.969, Definition of a Physician, “affirms that a physician is an individual who has received a ‘Doctor of Medicine’ or a ‘Doctor of Osteopathic Medicine’ degree or an equivalent degree following successful completion of a prescribed course of study from a school of medicine or osteopathic medicine”. Since current AMA Policy H-405.969 describes who is considered a physician, your Reference Committee recommends that the parenthetical language (M.D. or D.O. or foreign equivalent) in the second and third Resolves be deleted.

Online commentary noted that the description of the task force needed further clarification. Your Reference Committee believes the amendments proffered reflect the online forum commentary and strengthen the language in the third Resolve.

Therefore, your Reference Committee recommends that Resolution 1 be adopted as amended.
