

ICPH 2022

International Conference on Physician Health™

Exhibitor and sponsorship prospectus

The International Conference on Physician Health™ (ICPH) is a collaborative meeting of the American Medical Association, the Canadian Medical Association and the British Medical Association. This conference is held every other year and is hosted by one of the founding associations. The conference provides a forum for practitioners and researchers to present innovative methods and support systems, educational programs and recent research findings in the area of physician health.

The COVID-19 pandemic placed an extraordinary amount of stress on physicians and highlighted the fact that doctors are people too. This conference focuses on practical steps to make medicine a more sustainable career choice. ICPH promotes an overall healthier culture for physicians by offering practical evidence-based solutions, practice skills, and resources and tools for attendees to take back to their workplace and readily implement. Being a research-based conference, the agenda is determined by the abstract submissions received.

This year the ICPH will be in Orlando, Fla., on Oct. 13–15 at the Hyatt Regency Orlando. “Engaging organizations to achieve cultural change” is this year’s conference theme. The subtheme is “Building a united front for cultural change while activating systems to improve physician well-being.”

Why your organization should be part of this event

- Network with physicians from around the world
- Showcase your organization's commitment to physician health as a recognized exhibitor/sponsor
- Promote your organization and services to over 500 attendees both in person and virtually
- Become involved in making physician health a priority for physicians and the organizations in which they work
- Learn about current and innovative research in physician health

On behalf of our collaborators and hosts, we invite you to join us as an exhibitor and/or sponsor at this exciting and unique conference.

In 2021, ICPH, held virtually, attracted over **750** attendees from around the world and provided a multitude of opportunities for physicians and researchers to learn, discuss, network and broaden their horizons.

Audience

Attendees typically include physicians, academics, students, researchers in physician health, physician administrators, physician educators and consultants. The 2022 ICPH has an expected attendance of over 500 people. The audience profile includes both national and international attendees who are looking to showcase their research, and bring insights and industry-proven solutions for activating health system change and/or increasing physician well-being.

What attendees said

"It was a really great conference and I am still watching sessions as there were so many I wanted to attend or re-watch and this platform gives me the opportunity."

"I really love the variety of offerings and the international collaborations."

"There were presentations that gave me an incredible amount to think about. For the most part the sessions that grabbed my attention were physician presenters because it gave me hope physicians can carve out time for this work."

"I took a lot from the sessions I attended. Would definitely be interested in attending in person when there is an opportunity."
