

## LGBTQ & Allies November 2021 Caucus Meeting Virtual

### Opening plenary session for all AMA Section members

November 7, 1:30-3 p.m.

#### ***Science and storytelling: Making physicians' voices the loudest in the room***

The pandemic has revealed so much about the expertise and resilience of our nation's physicians—but it has also revealed the need, now more than ever, for elevating their voices. When it comes to medicine, the AMA believes physician voices should be the loudest in the room—and the AMA is working hard to make that happen. Join us for a discussion with Dr. Peter Hotez, a renowned scientist, physician, and advocate in the fields of global health, vaccinology and neglected tropical disease control, as well as a live panel of AMA physician thought leaders who will share their expertise to help others use their voices—because doing so has become a vital and urgent need to protect our nation's health.

*Section meeting registrants will automatically receive an email with a Zoom link to join the plenary session. If you did not receive an email with your Zoom link, please register for the plenary session [here](#).*
