

CPT® Editorial Summary of Panel Actions September 2022

CPT® Editorial Summary of Panel Actions September 2022

Please be aware that these actions are a reflection of the discussions at the most recent Panel meeting. Disclosure of Panel action and deliberation is limited to the information contained in this Summary of Actions. Premature release of coding information other than that contained in this document is prohibited under the [CPT Confidentiality Agreement](#). Codes are not assigned, nor exact wording finalized, until just prior to publication. Release of more specific CPT® code set information is timed with the release of the entire set of coding changes in the CPT publication.

If an applicant or other interested party believes an action of the CPT Editorial Panel was in error, that individual or entity may request reconsideration of the Panel action. An “interested party” is an individual or entity that may potentially be impacted by the Panel’s decision, regardless of whether they participated in the Panel’s original consideration of the matter.

Submitting the Request: Requests for reconsideration must be received by AMA staff no later than midnight, Central, October 28, 2022, fourteen (14) days after the published posting date (October 14, 2022) of the Summary Grid of Editorial Panel Actions on the CPT website <https://www.ama-assn.org/about/cpt-editorial-panel/summary-panel-actions>. The request should contain (1) the specific action requested for reconsideration; (2) the basis for the reconsideration request; and (3) all information relevant to the matter, including any literature (whether favorable or adverse) related to the requestor’s position. Requests for reconsideration and relevant information must be in writing and submitted (via email) to:

Zach Hochstetler
Director, CPT Coding & Regulatory Affairs
American Medical Association
Zachary.hochstetler@ama-assn.org

Participation by Interested Parties: The receipt of a request for reconsideration, the identity of the party seeking such, and a summary of the basis for the reconsideration request will be noted in the summary grid of Editorial Panel actions for the agenda item. The applicant and interested parties are responsible for monitoring postings to the CPT website with respect to requests for reconsideration. CPT staff will make reasonable efforts to identify potentially interested parties and notify them of the receipt of the request for reconsideration and the opportunity to be heard. An interested party seeking to comment on the request for reconsideration should submit its comments within fourteen (14) days of the posting of the notice (see deadline in **Submitting the Request** above) in the summary grid of Editorial Panel actions that a request for reconsideration has been received. Comments should include (i) a statement of the nature of the commenter’s interest in the issue, (ii) the specific comment and reason for the comment, and (iii) all relevant material including any literature (whether favorable or adverse) related to the commenter’s position. Comments should be submitted to the Director of CPT Coding & Regulatory Affairs at the address shown above. The applicant(s) who submitted the original code change proposal is automatically considered an interested party and will receive notice of any request for reconsideration submitted by another party.

Note: Codes that contain an 'X' (e.g., 102X4, 234X2, 030XT) are placeholder codes that are intended, through the first three digits, to give readers

an idea of the proposed placement in the code set of the potential code changes. These codes are not used for claims reporting and will be removed and not retained when the final CPT Datafiles are distributed around early to mid-September of each year. To report the services for 'X' codes, please refer to the actual codes as they appear in the CPT Datafiles publication.

Tab #	Name	Code #	Request-Description	Effective Date	Request for Reconsideration
6	Vaccine Counseling	-----	REJECTED		Renee Slade, MD, (AAP) Joel Bradley, MD (AAP) Suzanne Berman, MD (AAP) Jeannine Engel, MD (ACP) request reconsideration of the decision to establish codes 9X019, 9X020 to report counseling for vaccines performed in the absence of administration
