

United States Adopted Names Application Fees

The application fee for obtaining a United States Adopted Name (USAN) will be assessed according to the following schedule:

Naming a new single-entity drug, including a compound that has been assigned an International Nonproprietary Name (INN), pharmaceutical aid, or suture material	\$18,000.00
USAN modified (name for a salt, ester, or enantiomer/racemate of a drug for which a USAN already exists)	\$10,000.00
USAN revised (revision of support information used to define a USAN or USAN modified)	\$5,000.00

The application fee for processing contact lens materials is:

Name for a new contact lens polymer	\$18,000.00
USAN modified or revised for existing contact lens polymer (name for which an adopted USAN already exists or a revision of support information used to define a USAN or USAN modified is needed)	\$10,000.00

How to make a payment

For your convenience, we offer two secure payment options:

1. ACH Debit: ACH payments should be made by using the **USAN Application Portal**.
2. Wire Transfer: Wire payments should be addressed "American Medical Association/USAN" and reference the Case ID assigned to your application in the **USAN Application Portal**. Confirmation of your wire transfer must be submitted along with your application in order to initiate review. International clients must submit payment of their application fee via wire transfer.
