## **Enhancements to your VeriCre™ Physician Profile**

**Date: 12.10.25**

---

We're thrilled to announce a significant enhancement to VeriCre™ Physician Profiles that will streamline your credentialing processes and provide more comprehensive physician verification data. These enhancements introduce three new data elements that will automatically be available to all VeriCre™ users through the VeriCre™ Physician Profiles.

Find comprehensive details about these enhancements below.

# Release Note

## 1. Graduate Medical Education (GME): Reason Codes

Gain deeper insight into physician training completion with new reason codes that explain "Partially Completed" status. You'll now see one of the below four reported reason codes for this status:

- Transfer
- Withdrawal
- Leave of Absence
- Other

Sample screen of new GME data located within the VeriCre™ Physician Profile:

### Current and/or historical ACGME-accredited graduate medical training programs

*This section's data is sourced only from training programs accredited by the Accreditation Council for Graduate Medical Education (ACGME) as part of the National Graduate Medical Education Census. Program name is only reported for training received in 2010 and later. Training types are identified as specialty (residency) or subspecialty (fellowship) only for training received in 2016 and later. Current Program Director is displayed only for training programs completed within the past five years and reported to AMA*

*The VeriCre Physician Profile does not include non-ACGME accredited training programs, and the absence of such does not necessarily indicate a gap in training.*

*Training performed in Canada or at an accredited US osteopathic institution is updated only upon verification by the program. US licensing authorities accept GME from both entities as equivalent to training performed at an ACGME-accredited program.*

*Verification of training status may be indicated in one of four ways. Completed indicates that the training has been completed in its entirety and verified with the program. Training in Progress indicates the training has a future completion date and is verified as in progress. Verification of Completion in Progress indicates the training has a past completion date and was verified as in progress but the program has not yet verified completion. Partially Completed indicates the training is verified as partially completed but the physician either changed programs or did not complete the training. Reported reasons for this status are provided parenthetically if available.*

*Please review final postgraduate training segment(s) to determine completion.*

<b>Sponsoring Institution:</b>	STANFORD HEALTH CARE
<b>Sponsoring State: Program Name:</b>	CALIFORNIA STANFORD HEALTH CARE-SPONSORED STANFORD UNIVERSITY PROGRAM
<b>Specialty:</b>	ALLERGY AND IMMUNOLOGY
<b>Training Type:</b>	SPECIALTY
<b>Dates:</b>	07/01/2019 - 07/16/2021
<b>ACGME requirements:</b>	PARTIALLY COMPLETED (transfer)
<b>Current Program Director:</b>	JOE SMITH

This additional context helps you make more informed credentialing decisions.

## 2. Graduate Medical Education (GME): Current Program Director

Save valuable time for your medical staff, physicians, and program directors. VeriCre™ now includes "Current Program Director" names.

Sample screen of this new data element within the VeriCre™ Physician Profile:

### Current and/or historical ACGME-accredited graduate medical training programs

*This section's data is sourced only from training programs accredited by the Accreditation Council for Graduate Medical Education (ACGME) as part of the National Graduate Medical Education Census. Program name is only reported for training received in 2010 and later. Training types are identified as specialty (residency) or subspecialty (fellowship) only for training received in 2016 and later. Current Program Director is displayed only for training programs completed within the past five years and reported to AMA.*

*The VeriCre Physician Profile does not include non-ACGME accredited training programs, and the absence of such does not necessarily indicate a gap in training.*

*Training performed in Canada or at an accredited US osteopathic institution is updated only upon verification by the program. US licensing authorities accept GME from both entities as equivalent to training performed at an ACGME-accredited program.*

*Verification of training status may be indicated in one of four ways. Completed indicates that the training has been completed in its entirety and verified with the program. Training in Progress indicates the training has a future completion date and is verified as in progress. Verification of Completion in Progress indicates the training has a past completion date and was verified as in progress but the program has not yet verified completion. Partially Completed indicates the training is verified as partially completed but the physician either changed programs or did not complete the training. Reported reasons for this status are provided parenthetically if available.*

***Please review final postgraduate training segment(s) to determine completion.***

<b>Sponsoring Institution:</b>	STANFORD HEALTH CARE
<b>Sponsoring State: Program</b>	CALIFORNIA
<b>Name:</b>	STANFORD HEALTH CARE-SPONSORED STANFORD UNIVERSITY PROGRAM
<b>Specialty:</b>	ALLERGY AND IMMUNOLOGY
<b>Training Type:</b>	SPECIALTY
<b>Dates:</b>	07/01/2019 - 07/16/2021
<b>ACGME requirements:</b>	PARTIALLY COMPLETED (transfer)
<b>Current Program Director:</b>	JOE SMITH

This readily available data reduces the back-and-forth during verification and lightens the administrative burden on program directors who are frequently contacted during credentialing.

# Release Note

## 3. Sanctions (Action Notifications): Office of Foreign Assets Control – Specially Designated Nationals (OFAC - SDN)

Expand your sanction coverage with OFAC - SDN (Office of Foreign Assets Control – Specially Designated Nationals). This addition discloses sanctions issued by the U.S. Department of the Treasury during initial credentialing and reappointment periods.

OFAC - SDN sanctions will appear within the existing VeriCre™ Action Notifications profile section:

### Action notifications reported to the AMA

- Medical Licensing Boards:** NO ACTIONS REPORTED AT THIS TIME
- Medicare/Medicaid Sanctions from DHHS:** NO ACTIONS REPORTED AT THIS TIME
- US DOJ Drug Enforcement Administration:** NO ACTIONS REPORTED AT THIS TIME
- ▶ **System for Award Management Exclusions:** *ACTION REPORTED*. Visit <https://sam.gov> for additional information.
- ▶ **Office of Foreign Assets Control - Specially Designated Nationals:** *ACTION REPORTED*. Visit <https://ofac.treasury.gov> for additional information.

Important notes about OFAC:

1. An OFAC sanction flag will only appear if the physician has an active sanction.
2. When no active sanctions are present, OFAC will display “No action reported at this time”
3. For details on active or historical sanctions, visit <https://ofac.treasury.gov>
